

Static load test Data Logger | GTDL-253S

This product is a 4-channel strain gauge and it is equipped with SD data memory and touchable screen checking and saving date without PC connection. By connecting the strain gauge, the measurement of strain rate and measurement sensors for load cell, LVDT, pressure, torque, accelerometer, potentiometer or RTD are available. Also, built-in USB memory port in front part facilitates data transfer to PC.

I FEATURE I

- 4 channel static data logger
- Multi-functions with touchable screen and data memory
